

Example Outdoor Smoking Shelter

DEFINITION:

An "outdoor smoking shelter" is
a. an attached addition to, or
b. detached structure located on
the same lot as
a structure which is used for retail
alcoholic beverage sales.

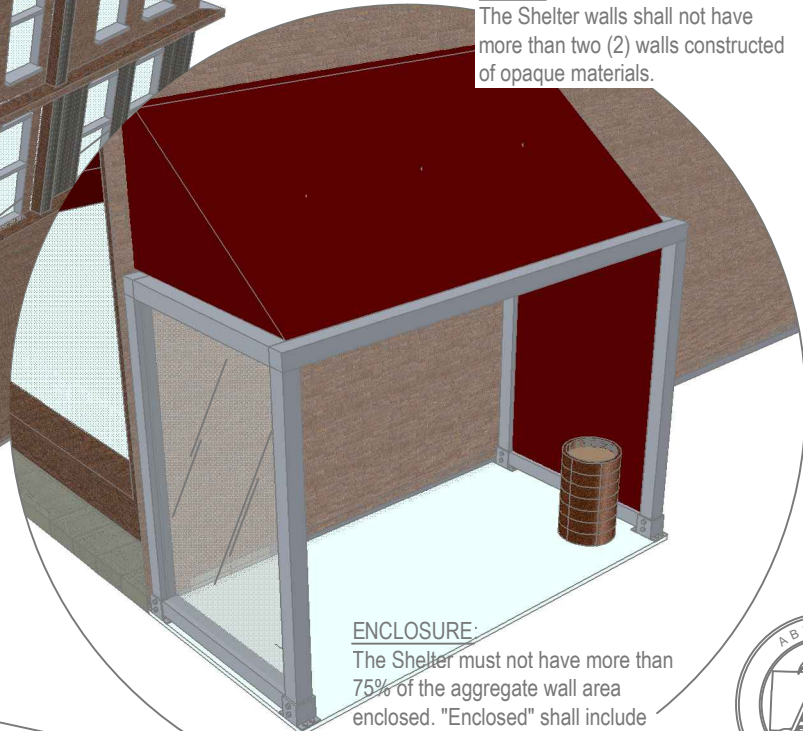

LIGHTING:

The Shelter must have adequate,
weatherproof lighting to illuminate
the interior of the structure.

WALLS:

The Shelter walls shall not have
more than two (2) walls constructed
of opaque materials.

ENCLOSURE:

The Shelter must not have more than
75% of the aggregate wall area
enclosed. "Enclosed" shall include
areas that are enclosable by permanent
or temporary doors, walls, or windows.

ADDITIONALLY:

The Shelter must not be taller than the primary
structure, must be aesthetically similar to the
primary structure, and must comply with all
provisions of the building code, regardless of size.
